

Date: 6/17/2205

To: Veterinary Extension and Public Health Colleagues and Students

From: Drs. Tyler Jumper and Kathy Whitman, AAEV 2025 Symposium Co-chairs

Subject: *Call for Abstracts for the AAEV Applied Animal and Public Health Research & Extension Symposium, November 2, 2025*

DEADLINE: August 30, 2025

The AAEV Symposium is a fantastic opportunity for veterinarians and veterinary students to share their projects with others in the field, and network with others that interface with the public sector! Please consider submitting an abstract, or encourage others (including veterinary or graduate students).

Have you recently worked on a project or developed resources related to animal or public health? Would you like to share it as a 15-minute presentation with an enthusiastic audience? The American Association of Extension Veterinarians (AAEV) seeks presenters for their 21st Annual Applied Animal and Public Health Research and Extension Symposium in Denver, Colorado.

The Symposium will be held on Sunday, November 2, 2025 from 3:00-6:00 pm, during the 129th U.S. Animal Health Association (USAHA)/68th American Association of Veterinary Laboratory Diagnosticians (AAVLD) Annual Meeting (Denver, CO). In-person presentations will be given preference in the selection process, with options for posters and a few pre-recorded presentations with live Q&A during the symposium. A remote option for AAEV members to attend the symposium may also be available. **Registration for the USAHA or AAVLD meeting is encouraged, but not required to attend/present at the symposium.**

Abstracts should:

- Highlight an animal or public health topic applicable to veterinarians involved in extension, regulatory, academic, or diagnostic careers.
- Contain preliminary/concluding description of the outcome and significance of the work.
- NOT exceed 350 words.
- Submitted as a word document with the following formatting:
 - The abstract should have one-inch margins and use Times New Roman 12-point font. Title should be centered and in bold type. Authors should be centered (initials followed by last name) below the title; author locations should be placed directly below the author(s)' names. Superscript numbers may be used to designate different locations. Abstracts are final upon submission. Abstracts will be shared with attendees and posted on the AAEV website.

IMPORTANT DATES:

August 30: Abstracts due as an e-mail attachment (MS Word compatible file or PDF) addressed to Drs. Tyler Jumper (tyler.jumper@msstate.edu) and Kathy Whitman (kathy.whitman@colostate.edu).

September 15: Authors of selected abstracts notified, designation as speakers or posters only, and assignment of scheduled time for live Q&A, if accepted as either a recorded presentation or a poster. Recording guidance will be provided.

October 1 (For virtual presenters only): Presentation recordings of 15 minutes or less are due to Drs. Drs. Tyler Jumper (tyler.jumper@msstate.edu) and Kathy Whitman (kathy.whitman@colostate.edu).

October 13: Presenters should be available in-person for live presentation or online for Q&A for their presentation between 3 pm and 6 pm, or as determined by the co-chairs.

Please contact Symposium co-chairs Drs. Drs. Tyler Jumper (tyler.jumper@msstate.edu) and Kathy Whitman (kathy.whitman@colostate.edu) for additional information.

There is no funding for travel nor honorarium for presenters. Veterinary student presenters are encouraged to apply for an AAEV travel grant. Up to two travel grants of up to \$500 per applicant will be provided by the American Association of Extension Veterinarians for eligible students on a competitive basis. This amount is intended to reimburse some of the expenses (transportation, lodging, food, etc.) incurred to attend the Applied Animal and Public Health Research and Extension Symposium and present an abstract. Please submit the grant application at the same time as the abstract. Download the form to apply: [Student Travel Award Application](#)
